

intro: **Em** DESERT WIND - Kate Wolf

There's a wind blowing down the canyon  
So hot and dry, the rocks turn red  
Shade grows thin and shrinks to nothing  
as the sun climbs overhead

### CHORUS:

What can I say, you said it all  
Your words ride— on the desert wind  
Telling me about tomorrow  
and how a heart can love again

Did-you-see the stars as you lay sleeping  
as they crossed the midnight sky  
I could hear my own heart beating  
In the still - ness of the night

### CHORUS

*instrumental:* **C G / C G/D B7 / Em Em B7 Em**

It's all alone with the earth and sky  
The hours are long, the days go slow  
Your loving way, like the wind reminds me  
There is so much that I do not know

2x→**CHORUS**
